follow up call

Here are the topics open since our last call that we should cover on our call next week:

1. Thompson & Knight FOIA request, 6-RIN-00727-04:

EPA gave a partial response pending the CBI claims. What is the status of those CBI claims and when will EPA produce documents that are not CBI? Specifically:

- Technip-KTI Corporation - Response to Notice of Liability and 104(e) Request for Information (170 pages); They have it from # 724-04
- Leevac Corporation-Response to 104(e) Information Request (3 pages); also.
- Parker Drilling Offshore Company-Response to 104(e) Information Request (446 pages).  
- reasserted CBI w/ a few exceptions - They have FOIA? 104es?

2. EPA was to review and send us the several requests and corresponding responses that EPA sent to and received from:

- Kirby Inland Marine, Inc. of Louisiana/Kirby Corporation - They have FOIA 724
- Dixie Carriers Inc./Dixie Linehaul/TPT Transportation " - included in Kirby.
- Parker Drilling "
- Samadan Oil Corporation/Noble Energy Inc. (e.g., check on March 9<sup>th</sup> Noble letter) "

3. Carl was to check to see if 104(e) letters were sent to any other entities.

NO

4. Status of EPA's corporate entity search on the names we gave you last call from the "Tiner memo" (plus the Web site references I emailed to you) so EPA can send 104(e) letters to them:

- Hollywood Marine now Kirby? has EPA done further search work?
- National Marine have not 104e'd.
- Ingram Barge Company do not plan to based on the Tiner memo.
- ACBL (The American Commercial Barge Line)

one customer list only.

5. The documents that Mr. Casale has at his house and which he said he would provide to EPA are critical to this task. When will EPA obtain these documents? A previously filed FOIA covers these documents. cannot provide if we don't have requests? We do have

Liz Webb - Dow, Thompson/Knight  
Bill - Chromally  
sequa - Paints CO.

Parker Drilling Offshore Corp formerly Hercules offshore Corp
